For the purposes of this compilation, the term “Jewish Studies” is defined broadly and includes Old and New Testament studies, rabbinical literature, Hebrew and other Jewish languages, Hebrew and other Jewish literatures, Jewish history (including history of the Jews in the Diaspora), Israeli history (including current events in the Land of Israel), geography of the Land of Israel, and history of the Near East (Assyria, Babylonia, etc.). The list also includes headings that may be subdivided with the Religious aspects—Judaism subdivision and with the Religious aspects subdivision that may not be subdivided further. Additions, deletions and changes of free-floating subdivisions related to languages, geographic names, religions, and ethnic groups are represented under the headings Hebrew language, Israel, Judaism and Jews, respectively.

For each subject heading on the list, all scope notes that appear in the Weekly Lists are provided, as well as the LC classification number. Used for (UF) references, Broader terms (BT), Narrower terms (NT), and Related terms (RT).

The list is divided into three sections:

1. New Subject Headings;
2. Old vs. New Subject Headings;
3. Update of Existing Subject Headings, including changes in geographic subdivision and in cross references. (*)represents a new heading, and C stands for a canceled heading.)

This list does not attempt to replace Library of Congress publications, and it is suggested that the reader consult those publications for further information: LC Weekly Lists [available on the Library of Congress Gopher (gopher://marvel.loc.gov)], printed LCSH (the “red books”) LCSH on CD-ROM, or LCSH online through OCLC or RLIN.
