The following subject headings of Judaic interest were culled from Library of Congress Weekly Lists no. 21–51 (1987) and no. 1–29 (1988). "Judaic interest" is defined broadly, thus some of the terms selected are not intrinsically Jewish concepts.

Included are new subject headings, subject headings that have been revised, subject headings that feature additions and/or deletions to their references. It is suggested that the reader consult the Weekly Lists or Library of Congress Subject Headings (LCSH) for further information.

This column is divided into twelve sections:
1. New and Revised Subject Headings
2. Moving-pictures . . . Motion pictures
3. Cancelled Subject Headings and Subdivisions
4. Changes: Old vs. New Subject Headings
5. [Topic]—Religious aspects—Judaism

7. Culinary Subject Headings: An Update

Once again, after a careful review of the Weekly Lists, it is clear that LC is cataloging many books dealing with food or the food industry. The following list brings together the "culinary" subject headings that may be of interest to Judaica librarians.

Some of the items on this list are basic to Judaism and the Jewish people (e.g., BREAD and SALT), while other items are simply known as "Jewish foods" (e.g., CHICKENS, CREAM CHEESE, and SOUR CREAM). This columnist finds MAKE-AHEAD COOKERY to be the most inspirational item on this list. This awkward-sounding subject heading certainly describes a practice all too common among Jews who are Shomrei-Shabat, particularly working women! But perhaps LC might consider rephrasing this very useful subject heading so that it sounds a bit more graceful.

8. Mysticism and the Occult: Jewish Aspects

Judaica librarians may find the following list of subject headings, which were culled from Weekly Lists no. 26, dated June 24, 1987 (p. 1—13), of interest.

Astrology [BF 1651 — BF 1729 = Occultism; QB 25 — QB 26 = Astronomy]
Blessing and cursing
11. Geographic Heading Proposals for Name Authority File

The following list of proposals for the LC Name Authority File, culled from the Weekly Lists, includes both valid and invalid headings. The reader is encouraged to read the scope notes (which are provided) to determine a particular heading's validity.

Alsace-Lorraine (Germany)
- This heading is not valid for use as a subject. Works about this place are entered under Alsace (France); Lorraine (France).

Brandenburg (Electorate)
- This heading is not valid for use as a subject. Works about this place are entered under the subject heading Brandenburg (Germany and Poland).

Bukovina
- This heading is not valid for use as a subject. Works about this place are entered under the subject heading Bukovina (Romania and Ukraine).

Kings County (N.Y.) (*see the end of this section)
- As a geographic subdivision, this heading is used indirectly through New York (State).

Kosovo (Turkey)
- This heading is not valid for use as a subject. Works about this place are entered under Kosovo (Serbia).

Księstwo Pomorza Zachodniego (Poland)
- This heading is not valid for use as a subject. Works about this place are entered under the subject heading Pomerania (Poland and Germany).

Kościół Poznański (Poland)
- This heading is not valid for use as a subject. Works about this place are entered under Poznań (Poland: Voivodeship).

*Other Decisions

Kings County (N.Y.); New York County (N.Y.)
- The five boroughs of New York (N.Y.) are coextensive with five counties of New York (State). Both the headings for the boroughs, which are established as city sections, and the headings for the counties are valid for use as subject headings. Catalogers should assign as a subject the name used in the work being cataloged. The five boroughs, because they are city sections, cannot be used in indirect subdivision, whereas the counties can be used indirectly and should be divided through New York (State).

(dated March 9, 1988)
